PROFESSIONAL SUMMARY

Electronics and Communication Engineering graduate (B.E.) trained in PCB design (KiCad, EasyEDA) and circuit simulation (Proteus, LTspice). Designed and built a microcontroller-based Smart Energy Monitoring System with real-time sensor data acquisition and anomaly detection. Gained production and quality-check exposure at Schneider Electric India. Seeking a PCB Design Engineer or Hardware Design role

HARDWARE SKILLS

- **PCB Design Tools:** KiCad, EasyEDA, Proteus Design Suite
- **PCB Design Workflow:** Schematic capture, component selection, PCB layout, circuit simulation and validation, Gerber/DRC.
- **Electronics Fundamentals:** Analog and digital circuits, basic electronics, components, circuit analysis, hardware testing, troubleshooting, basic soldering and prototyping
- **Microcontrollers and Boards:** Arduino, Raspberry Pi,ESP32,STM32
- **Embedded Programming:** Embedded C, Python (automation and sensor data handling)
- **Communication Protocols:** MQTT, GSM
- **Other Tools:** Arduino IDE, Git, GitHub,LTspice, STM32CubeIDE,TS Master

PROJECTS

Smart Energy Monitoring System

- Integrated sensors with a microcontroller-based data acquisition setup to monitor energy parameters in real time.
- Implemented anomaly detection logic to flag abnormal readings.
- Applied circuit design, sensor interfacing and hardware testing across the build.

PROFESSIONAL EXPERIENCE

Production Trainee (Deputation), Schneider Electric India Pvt. Ltd. *Jan 2026 – Mar 2026*

- Worked on-site in an industrial electrical manufacturing environment, gaining direct exposure to production processes, quality checks and hardware assembly workflows.
- Gained practical understanding of how designs move from drawings to assembled, tested hardware.

Embedded Systems Intern, Career Ladder – Hope College, Coimbatore *Dec 2025 – Jan 2026*

- Gained hands-on experience programming microcontrollers in Embedded C, interfacing sensors and modules, and debugging circuits and code.

EDUCATION

Bachelor of Engineering (B.E), Electronics and Communication Engineering *Aug 2022 – May 2026*
Angel College of Engineering and Technology | Anna University | CGPA – 7.5
